Rack Padding

Thermotec's Roof Rack Protectors are designed to safeguard equipment from damage during transit, while your equipment is tied to the roof rack. The easy to slide on padding is commonly used to protect equipment such as kayaks, skis, small boats, mattresses, and more.

- Designed to shield your valuable items whilst mounted on top of the roof rack
- Various designs available to suit your roof rack shape and profile
- Profile for low wind resistance
- Easy to fit over the profile before end insertion or by slitting the padding on underside
- Made from durable, high quality foam for long lasting performance
- Australian Made
- Fits most roof racks
 - > Thule
 - > Rhino
 - > Rolar
 - > Wispbar
